

The Edison CBD

CBD PRODUCTS PROVIDE TREMENDOUS MIND AND BODY BENEFITS. STUDIES SHOW CBD'S EFFECTIVENESS WITH INFLAMMATION, CHRONIC PAIN, SLEEP, AND STRESS.

OUR QUALITY AND TECHNOLOGY

Our products utilize a proprietary, water-soluble nanoparticle process to increase the surface area of the CBD molecule. Third party studies show that this allows for up to 10 times faster absorption rates for a far greater impact when compared to standard, oil-based products. Our increased bio-availability allows for the largest amounts to enter into the system and with the greatest overall health impact.

BE CALM TINCTURE

- 1500 mg full spectrum CBD; providing a safe, but clinical dose. Also contains 100 mg LTheanine, 200 mg PEA-Palmitylethanolamide, 45 mg Valerian Root Extract, 200 mg Rhodiola, 100 mg Maca, 33 mg Boswellia Serrata Extract, 2 mg Lavender Oil, and .4 mL Peppermint.
- Incorporates adaptogens for dealing with everyday stress, along with sleep, relaxation, and inflammation aids which can be extremely helpful for mental and physical health and energy.

PAIN BALM

- 500 mg full spectrum CBD compared to 50-300 mg in other products.
- Full spectrum cannabinoid formula. Full spectrum CBD oil products have been found to have a superior advantage over CBD isolate as they contain many beneficial cannabinoids and terpenes, offering multiple health benefits.
- Contains an additional formula with key herbs, essential oils, and compounds.
- No added chemical ingredients, colors, or synthetic CBD.
